

SL9001 10W MX LED AREA FLOODLIGHT

Superlight 9000 series LED floodlights incorporate the latest MX LED technology to deliver incredible light output and performance. The fittings operate on standard Australian mains voltage and require zero lamp maintenance.

The 10W MX LED floodlight is suitable for general purpose area floodlighting, including residential security lighting, general purpose illumination, garden & landscape floodlighting, architectural floodlighting etc. The fittings are a great replacement for halogen and other floodlights due to their low energy consumption and cool running temperature.
